

Alliance

**Integrated E-Fax.
Bringing Fax into the 21st Century.**

NETRIO's Alliance Fax Solution allows You to Send and Receive Fax Right in Your Inbox

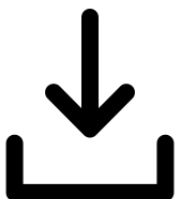

How E-Fax Works

SENDING FAX

- Step 1 – In the TO: field of your email client, enter fax@netriovoip.com
- Step 2 – In the Subject: field of your email client, enter the phone number
- Step 3 – Attached the document to be sent
- Step 4 – Push Send

Note: When sending a fax leave the CC: field, the body, and any signatures blank. Also, make sure the number in the Subject: field does not include any dots, dashes, or special characters.

RECEIVING FAX

When receiving a Fax, Netrio's integrated Fax solution will convert the inbound Fax into a PDF and send it to the email of your choice via an attachment.

Netrio can turn any number into a Fax number allowing you to keep your existing fax numbers or assign new ones.
